# WHAT IS REDISTRICTING?

After the federal census, electoral district boundaries, including Supervisorial District boundaries, will be redrawn all over the nation to balance the populations in each district based on the census data.

Since the County's last redistricting effort in 2011, several bills were passed which require that certain conditions are met throughout the redistricting process.

The Planning Commission's role as the Advisory Redistricting Commission and the County's approval of district boundaries are only for Supervisorial Districts. Cities will be conducting their own redistricting process for city boundaries.

# STATE LAWS

## **AB 849**

- Fair Maps Act - Allows jurisdictions to establish an Advisory Redistricting Commission and requires that entities are transparent (must hold at least four public hearings/requirements for a dedicated redistricting webpage).

## **SB 1108**

- A person who is an elected official of the local jurisdiction, or a family member, staff member, or paid campaign staff of an elected official of the local jurisdiction, shall not be appointed to serve on the Commission.

## **AB 1276**

- Defines when new boundaries must be adopted. ***For County of Riverside: December 15, 2021.***
