SOURCE OF FUNDS: 100% American Rescue Plan Act (ARPA)

C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary

On March 11, 2021, President Biden signed the American Rescue Plan Act of 2021 (H.R. 1319) into law. The $1.9 trillion package is intended to combat the COVID-19 pandemic, including the public health and economic impacts. On April 27, 2021, the Executive Office presented the Board of Supervisors with a preliminary ARPA funding allocation then on October 19, 2021, presented a revised funding allocation after the U.S. Treasury released the ARPA interim funding guidelines which include $36 Million for Economic Recovery.

On May 5, 2021, the Board received and filed the Strategic Economic Recovery Framework presented by the Economic Recovery Task Force (ERTF). Key components of the framework were short and long-term action items, which included Small Business Assistance, Regional Tourism Marketing Campaign, Business Ecosystem Support as well as Investment in Small Business Development and Innovation and Entrepreneurship Hubs, for a coordinated economic recovery from the pandemic and for the growth of the region whose trajectory includes the principles of equal access to opportunities and addressing barriers for economic equity and inclusion.
On January 6, 2022, the U.S. Treasury issued the final funding guidelines. These guidelines further clarify the detailed eligibility criteria for use of ARPA funds. As a result, under the Economic Recovery category, ARPA allows for the development of programs to assist businesses and industries struggling to rebound from the pandemic as well as focus on strategic investment projects for future economic growth and resiliency in unincorporated disproportionally impacted communities.

On March 22, 2022, the Board of Supervisors allocated $2,161,375 of the County's $36 million Economic Recovery ARPA allocation toward continued support for the County’s Tourism Recovery Campaign to address impacts to tourism due to the ongoing negative impacts from the COVID-19 pandemic. This continued program provided funding to tourism and hospitality marketing organizations, including the Temecula Valley Convention & Visitors Bureau (dba Visit Temecula Valley) in the amount of $402,000. The primary function of this organization is to grow tourism and convention/conference activities in the county and support the hospitality industry. Visit Temecula Valley has developed an action plan which includes detailed information about how funds will be utilized, consistent with the overall program objective. Throughout the specified program time frame, Visit Temecula Valley will provide reporting on the Tourism Recovery Campaign's impact within their region. Visit Temecula Valley is a regional destination marketing organization, the main source of tourism promotion efforts in southwest Riverside County and has a proven track record of tourism promotion efforts.

The proposed contract amendment would increase the period of performance by three months and increase total contract compensation by $804,000, to expand Visit Temecula Valley's efforts supporting tourism beyond their typical marketing region, to include Temecula, Murrieta, Lake Elsinore, Wildomar, Menifee, Hemet, San Jacinto, Canyon Lake, French Valley, Anza, and Temescal Valley.

Tourism has historically been a critical component of Riverside County's economy with its direct and indirect job creation, and generation of sales tax revenue, and transient occupancy tax revenue. The tourism and hospitality sector are one of the most negatively impacted industries in Riverside County by COVID-19. Visit California, the State's official destination marketing organization, contracts with Dean Runyan Associates to study the travel industry economy across the state of California, including detailed economic impact in Riverside County. In 2021, Visit California released an economic impact study on California's travel industry for 2020 and prior years. The study estimated that in 2019, the hospitality industry generated 86,600 direct jobs for Riverside County. Due to COVID-19 an estimated 19% (16,720) of those jobs were lost with the majority of work in frontline occupations. The report noted that direct travel spending in Riverside County was down by 39.2% from 2020, a $3.5 Billion loss to the industry.
Impact on Residents and Businesses
The proposed expanded tourism recovery program is expected to have a positive impact on the county, including its businesses and residents. Tourism affects most sectors of the economy and contributes to sales and transient occupancy tax revenues, jobs, and income.

Additional Fiscal Information
This proposed funding allocation toward the Tourism Recovery Campaign will come from U.S. Department of Treasury ARPA funding and will not impact the County's General Fund.
